

GABRIEL TAVARES BRAYN ROSATI

Seeking Opportunities in AI Engineering

gt.rosati@gmail.com | +55 (19) 98383-7659 | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

EDUCATION

USP – Bachelor's Degree in Computer Science - Mar 2019 – Jul 2026

UGR (Spain Granada) – Computer Engineering - Sep 2024 – Feb 2025

PROFESSIONAL EXPERIENCE

Urutaus Tech - Cofounder & AI Engineer - Dec 2025 - Present

- Architected autonomous Customer Success AI agent featuring smart routing, intent classification, and strict guardrails, fully automating WhatsApp (official API) order generation and data preprocessing.
- Led technology consulting for a Private Equity firm, delivering a strategic roadmap, budget projections, and architecture recommendations to resolve workflow bottlenecks and standardize enterprise AI adoption.

4flow – AI Engineer (Internship) - Mar 2026 – Jul 2026

- Co-developed "LUCA," an advanced enterprise AI agent utilizing LangGraph, RAG architecture, and Text-to-SQL, enabling clients to seamlessly query complex shipment data and route intelligence.
- Engineered a predictive machine learning pipeline using deep learning algorithms to forecast client truck load volumes with an 8-week horizon, deploying an interactive Streamlit dashboard to optimize supply chain planning.
- Architected automated workflows utilizing n8n to streamline exception management, significantly reducing manual intervention and accelerating issue resolution in logistics operations.

Accenture – AI & Data Engineer (Internship) - Jul 2025 – Feb 2026

- Implemented serverless & AI Architecture (GCP): Implementation of microservices in Cloud Functions for Agent orchestration with LangChain, ensuring scalability in automatic classification and message sentiment analysis in feedback from users.

The Mome – Full stack Engineer (Freelance) - Dec 2025 – Apr 2026

- Led end-to-end architecture and deployment of a scalable headless e-commerce platform using Next.js, TypeScript, and Shopify API, optimizing UX/SEO while engineering automated CI/CD pipelines and testing suites for zero-downtime delivery.
-

TECHNOLOGIES

AI & Machine Learning: Python, PyTorch, Scikit-learn, LangFuse, LangChain, LangGraph

Full-Stack: TypeScript, React, Node.js, Next.js, FastAPI, Tailwind CSS

Databases: SQL, Pinecone, Qdrant, PostgreSQL, MongoDB, Snowflake

Cloud and Infrastructure: AWS, OCI, GCP, Docker, Kubernetes, Azure, CI/CD, Locust, Grafana

Tools: Git, Linux, Figma, Postman, n8n

CERTIFICATIONS & LANGUAGES

- Portuguese (native), English (C1), Spanish (B2)
- [Oracle Cloud Infrastructure 2025 Generative AI Professional](#)
- [Oracle Cloud Infrastructure 2025 AI Foundations Associate](#)
